# Hi, I'm Sargam Jain

Software Engineer | Full-Stack Developer | Problem Solver

[View My Work](#)

## About Me

Welcome! I'm a passionate software engineer specializing in web development, AI, Machine Learning .I create efficient, scalable, and user-friendly solutions to complex problems. My journey in tech is fueled by curiosity and a love for building impactful projects.

## Projects

### Project 2: Sign Language Recognition System

A capstone project utilizing CNN and SVM for real-time sign language detection via webcam.

[View on GitHub](#)

### Project 3: Movie Tracker App

An app developed with Expo to help users track movies and shows they want to watch.

[View on GitHub](#)

### Project 3: ChatBot

A chatbot made using python language and sklearn modules .
